

# Multi-Profile Cope and Stick/Raised Panel Insert Cutters for Shapers

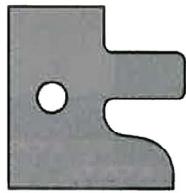

## OVERVIEW

This multi-profile tool cutter set produces five different, cope and stick cabinet door profiles and five, unique raised panel utilizing solid carbide insert knives. These tools provide excellent finish when cutting with or cross grain in solid wood. Tool body is steel construction, and insert design provides constant cutting diameter and exact profile match with every set up. Standard profiles are shown to the left. **GDP also manufactures custom tooling sets to meet customer's exact specification of diameter, bore, and profile detail.** For custom profiles, please send a drawing, sketch, or sample to obtain a price and lead time. Manufactured in accordance with European Safety Standards. Recommended RPM: 4,800-8,300.
